

Fit for AI Assessment

Unlock your AI potential with ServiceNow

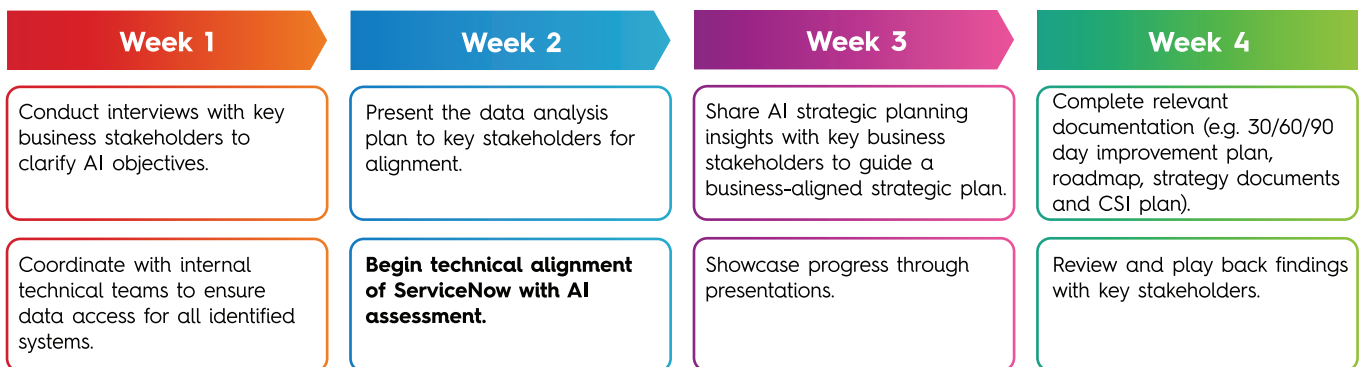

- Are your ServiceNow business processes optimised?
- Is your organisation ready with data that's primed for AI implementation?
- Do you have a tailored AI strategy and roadmap to stay ahead of the curve?

If not, or if you're unsure, then our Fit for AI Assessment is the first step in preparing your ServiceNow environment to fully harness the power of AI.

Tailored for ServiceNow customers, Sopra Steria's **Fit for AI Assessment** is designed to help organisations navigate the complexities of AI adoption. Whether you have an AI objective but don't know where to start or seek to ensure your readiness, our assessment provides the guidance and expertise needed for successful AI implementation.

By preparing your ServiceNow environment for AI, you can unlock new capabilities and functionalities that drive greater value from their existing investments, leading to cost savings, improved service delivery, and enhanced user experiences, ultimately boosting the return on investment (ROI) from ServiceNow.

Our approach

Key benefits

 <p>Strategic alignment: Align AI plans with business goals to prioritise high-value initiatives.</p>	 <p>Infrastructure readiness: Ensure your IT and ServiceNow environments are ready to support AI.</p>	 <p>Resource optimisation: Identify the skills and resources needed to optimise ROI through training, hiring, or reallocation.</p>	 <p>Enhanced decision-making: Facilitate informed decisions on AI initiatives.</p>	 <p>Seamless integration: Ensure smooth integration of AI technologies into existing systems via Now Assist.</p>
